Progress of Project

- Committee reviewed revisions to plan:
- Simplified design ties in more efficiently with existing building and provides for wider gallery and vestibule spaces.
- Friends area is now narrower, running length of community room with storage at far end. This eliminates need for flat roof in previous version of plan.
- Storage was created to accommodate folding wall.
- Ken suggested option 1 revision to right side corner wall of proposed front entrance, which aligns entire length and provides additional space for community room.
- Suggestion to remove door by adult stacks in back of building.

Also discussed was a general schedule of plans once design and construction plans are completed.

Motion to approve revisions to the plan including option 1, made by Lisa. Second by Ron. Unanimous.
