

TOWN OF HARWINTON

100 Bentley Drive
Harwinton, Connecticut 06791

Dear Property Owner

If you or your contractor, push, sweep, or place by any other manner, sand, sticks, leaves, etc. into the road from the Town right of way or private property of sufficient quantity to cause an accident or plug catch basins you can be held liable, as you have created or allowed a hazardous condition to be created. If you or your contractor put material into the road you are advised to remove any heavy buildup immediately so as not to create a hazard that is dangerous for cars, pedestrians, and the environment.

Please remember that along most areas the Town's property extends off the road for any number of feet. If you wish to maintain this property to a higher standard than the Town can, please feel free, but just be responsible enough to not create a problem for others or the Town which you could end up being held liable for.

THANK YOU

John D. Fredsall
Highway Supervisor
